

## **CME APPLICATION WORKBOOK**

**ASSOCIATION OF PATHOLOGY CHAIRS  
50<sup>TH</sup> ANNIVERSARY MEETING  
JULY 24 - 28, 2017 ★ WASHINGTON, DC**

## Continuing Medical Education (CME) Information

**STRONGERTOGETHER**

**CME Accreditation Statement:** This activity (“APC 2017 Annual Meeting”) has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the American Society for Clinical Pathology (ASCP) and the Association of Pathology Chairs (APC). ASCP is accredited by the ACCME to provide continuing medical education for physicians.

The ASCP designates this “live” educational activity (“APC 2017 Annual Meeting”) for a maximum of **37.25 AMA PRA Category 1 Credit(s)**<sup>™</sup>. Physicians should claim only credit commensurate with the extent of their participation in the activity.

CME applications are available online ([www.apcprods.org/meetings-2017-cme-eval](http://www.apcprods.org/meetings-2017-cme-eval)) beginning **July 24, 2017**. Should you have questions, please contact the APC Office (302-660-4940; email [info@apcprods.org](mailto:info@apcprods.org)).

**Meeting Objective/Target Audience:** The APC Annual Meeting is a three-day meeting that provides educational activities for three major target audiences: (1) Chairs of Pathology and Laboratory Medicine Departments; (2) Program Directors and Associate Directors of Residency Training Programs; and (3) Course Directors of pathology courses in LCME-accredited medical schools in North America. The objective of the meeting is to facilitate knowledge acquisition regarding the ability of academic Pathology and Laboratory Medicine departments to carry out their missions in teaching, clinical service, and research. The meeting therefore focuses on undergraduate (medical school) and graduate (residency and fellowship) Pathology education, and the practice of Pathology and Laboratory medicine in academic medical centers and hospitals. Content focuses on issues such as the development of educational programs and curricula for the training of medical students, residents, fellows, and senior pathologists on providing cost-effective, high-quality clinical service to patients. The meeting also features content related to research and implementation of cutting edge practice tools, such as diagnostics, genomic medicine, and bioinformatics; and their implications on future healthcare delivery, as well as workforce development and realignment to support current and new skill sets required to practice Pathology and Laboratory Medicine now and into the future.

The target audience is professionals (MD, DO, PhD) and others who serve as the academic, medical, scientific, and administrative leaders of departments of pathology and laboratory medicine in the United States and Canada.

**Disclosure of Financial Relationships and Resolution of Conflicts of Interest:** In order to ensure balance, independence, objectivity and scientific rigor in all of its educational activities, and in accordance with ACCME Standards, the ASCP requires all individuals in a position to influence and/or control the content of ASCP CME activities to disclose to the ASCP and subsequently to learners whether they do or do not have any relevant financial relationships with proprietary entities producing health care goods or services that are discussed in CME activities. Faculty are asked to use generic names in any discussion of therapeutic options, to base patient care recommendations on scientific evidence and to base information regarding commercial products/services on scientific methods generally accepted by the medical community. All ASCP CME activities are evaluated by participants for the presence of any commercial bias and this input is used for subsequent CME planning decisions. The primary purpose of this activity is educational and the comments, opinions and/or recommendations expressed by the faculty or authors are their own and not those of ASCP.

None of the organizers of this educational activity (as listed in this section) disclosed a relevant financial relationship.

The following presenters have indicated relationships that have been reviewed, and their commercial conflicts of interest have been resolved. In all cases, it was determined that the financial relationship did not relate to the educational assignment. If a presenter is not listed, then he/she had no commercial interest to disclose.

**Invited Speaker Disclosures:**

**John Baci, MBA, C-PM**, Boston Children’s Hospital / Harvard Medical School

**PLEASE NOTE:**

Please refer to the CME Application Workbook on the following pages for a consolidated list of sessions that are eligible for *AMA PRA Category 1 Credit(s)*<sup>TM</sup>. APC, PRODS and UMEDS sessions are eligible for *AMA PRA Category 1 Credit(s)*<sup>TM</sup> except where noted in the meeting program. PDAS and GMEAS sessions are not eligible for *AMA PRA Category 1 Credit(s)*<sup>TM</sup>. Visiting exhibits is not an approved continuing medical education activity. Most meals are not approved for continuing medical education credit; however, some special breakfasts and lunches that have educational content are eligible for Continuing Medical Education credit as noted in your APC Meeting Evaluation and CME Application Workbook. The meeting program states those events that are not a Continuing Medical Education activity.

**Promoting Excellence in Academic Pathology**

The Association of Pathology Chairs serves as the voice of academic pathology. The mission of the APC is to provide leadership and to advocate for the dynamic discipline of pathology. The APC provides education, training, information resources and networking opportunities for chairs, residency program directors, undergraduate medical educators, department administrators, and graduate program coordinators. **Overall Meeting Evaluation**

My objectives in attending this meeting included: (check all that apply)

- Learning more about workforce development and realignment to support current and new skill sets required to practice Pathology and Laboratory Medicine now and into the future.
- Learning the newest advances in research and implementation of cutting edge practice tools, such as diagnostics, genomic medicine, and bioinformatics; and their implications on future healthcare delivery.
- Learning the newest approaches to the development of educational programs and curricula for the training of medical students, residents, fellows, and senior pathologists.
- Making contacts to help me meet new educational objectives or duties.
- Increasing the quality of patient care provided through my pathology department.

My objectives were fulfilled:    Yes    No
