Inspirata and Philips are delivering on the promise and value afforded by digital pathology... not through incremental advances, but with transformative, intelligent solutions that leverage computer vision and big data to revolutionize how pathologists work and contribute to precision medicine. Our goal is to remove the challenges associated with digital pathology implementation by taking an evolutionary leap in how pathology is practiced.

RISE PLUS
The best-valued option to help your residents succeed.

For one low price, your program will receive:

RISE
- Evaluate residents’ strengths and areas for improvement
- Created by a faculty of renowned experts in their fields

PRISE
- Unlimited access to 600+ case-based study questions online
- Questions include images, educational feedback and references

LAB MANAGEMENT UNIVERSITY
- 25 web-based multimedia courses in laboratory management
- Courses correspond with many of the ACGME Milestones in Lab Management

Help your residents develop best test utilization practices

Test Utilization for Residents

Developed in collaboration with APC/PRODS, this complimentary course is designed specifically for residents and emphasizes the importance and principles of appropriate test utilization practices.

Residents will review multiple clinical scenarios and use medical knowledge and interpersonal skills to offer advice on test utilization for the health care team. In addition, this course will help residents achieve the following residency training milestones:

• Laboratory Management (System-based Practice)
• Interpretation, Diagnosis, and Reporting (Patient Care)
• Consultation (Patient Care)
• Teaching (Medical Knowledge)
• Intra- and Interdepartmental Interactions (Interpersonal and Communication Skills)

Participate in this course online from any device. Residents need to establish a user ID on the CAP website if they do not already have one. CAP membership is not required.

Don’t let your residents miss out on this unique and complimentary learning opportunity!

Medical Student Interest Groups
Because Medical Student Interest Groups are a great mechanism to encourage outstanding medical students to consider a career in pathology, ICPI’s support can be used to enhance an existing program or develop a new one! ICPI will fund (up to $750) a limited number of programs each year. The goal is to develop a “best practices” for medical student interest groups.

ICPI Trainee Travel Award Program
ICPI supports trainee participation in scientific meetings organized by its participating societies. A limited number of ICPI Trainee Travel Awards are available.

There are two types of Travel Awards:
- Travel Award: $500.00 for trainees who do not submit an abstract
- Travel Award with Abstract: $750.00 for trainees who submit an abstract to the meeting they are attending

The stipend is intended to offset the travel costs for attending one of ICPI’s member societies’ meetings. Awardees must currently be a trainee (medical student, graduate student, resident, fellow) member of one of the participating societies of ICPI.

ICPI Trainee Travel Award Program

Pathology Student Honor Society
Co-Sponsored with APC
Recognize outstanding medical students in the discipline of Pathology at your institution! To find out how to participate, visit: www.pathologytraining.org/PSHS

Career Development Resources
Resources covering a variety of career paths are available on the ICPI website at www.pathologytraining.org/trainees/

Pathology Roundtable
Discussions of issues of concern to the discipline of pathology.

DIAMOND Partner Descriptions

Elsevier (Booth #3)
Elsevier is a world-leading provider of information solutions that enhance the performance of science, health, and technology professionals, empowering them to make better decisions, and deliver better care.
http://www.elsevier.com/

Inspirata, Inc. (Booth #7)
Inspirata provides an end-to-end digital pathology workflow solution that digitizes and automates the entire case review process using a unique, "solution-as-a-service" delivery model. This comprehensive solution includes workflow automation and high-throughput slide scanning as well as hi-res image viewing, computer-aided screening, collaboration tools, integrated data feeds from disparate clinical systems and reporting-all available in a single sign-on cockpit. www.inspirata.com

Philips (Booth #7)
At Philips, we deliver innovative, healthcare technology solutions designed to create value by improving the quality and delivery of care while lowering cost. Leveraging decades of Philips’ experience in clinical digital transformation, the IntelliSite pathology solution is designed to empower pathologists with a solution that supports optimization of productivity and workflow, and ultimately help to improve patient outcome.

PLATINUM Partner Description

American Society for Clinical Pathology (Booth #1)
The American Society for Clinical Pathology (ASCP) is the world’s largest professional membership organization for pathologists and laboratory professionals. Our mission is to provide excellence in education, certification and advocacy on behalf of patients, pathologists and laboratory professionals across the globe. With more than 100,000 members, the society’s influence has guided the application and evolution of the pathology and laboratory medicine specialty since 1922. http://www.ascp.org/
**GOLD Partner Descriptions**

**College of American Pathologists (Booth #2)**
As the leading organization for board-certified pathologists, the College of American Pathologists (CAP) serves patients, pathologists, and the public by fostering and advocating excellence in the practice of pathology and laboratory medicine worldwide. With more than 18,000 physician members, the CAP has led laboratory accreditation for more than 50 years with more than 7,500 CAP-accredited laboratories in 50 countries. For more information visit: [www.cap.org](http://www.cap.org)

**Corista (Booth #4)**
Corista’s DP3 is unlocking the scale, reach and utility of digital pathology, worldwide. The only digital pathology software natively reading every scanner’s image format, DP3 integrates universal image access, complete workflow, collaboration, and search and analysis functionality. DP3 integrates with any LIS, and is accessible from any web-enabled device. DP3 was awarded Frost & Sullivan’s Product Innovation Award in 2014. For more information visit: [www.corista.com](http://www.corista.com)

**Genentech (Booth #5)**
Founded more than 35 years ago, Genentech is a leading biotechnology company that discovers, develops, manufactures and commercializes medicines to treat patients with serious or life-threatening medical conditions. The company, a member of the Roche Group, has headquarters in South San Francisco, California. For more information visit: [http://www.gene.com/](http://www.gene.com/)

**Intersociety Council for Pathology Information (Booth #10)**
The Intersociety Council for Pathology Information (ICPI) is a nonprofit educational organization that serves as a central source of information about careers in pathology. ICPI publishes the *Directory of Pathology Training Programs*, supports Pathology Medical Student Interest Groups, trainee travel awards, and the Pathology Student Honor Society, which recognizes outstanding medical students in the discipline of pathology. For more information visit: [http://www.pathologytraining.org](http://www.pathologytraining.org)

**Sakura Finetek, USA, Inc. (Booth #6)**
We cordially invite you to visit our booth to experience the unbeatable combination of innovation and tradition. We present to you the VisionTek® M6 Digital Microscope, designed for cytopathologists and hematopathologists with 2.5x, 5x, 10x, 20x, 40x, 63x, adjustable Köhler illumination, fast scan speed of 1.5 min for 15 mm x 15 mm at 0.275 µm/pixels and time to view under 17 seconds for rapid remote live consultations. For more information visit: [www.sakura.com](http://www.sakura.com)

**The University of Washington Laboratory Medicine (Booth #8)**
The University of Washington Laboratory Medicine is serving our mission as a regional and national resource for exceptional, advanced clinical testing. Our specialties include molecular microbiology (paraffin embedded tissues), molecular virology (HIV 2), and Next Gen Sequencing (BROCA, Coloseq, Oncoplex). Clinical trial services available. For more information visit: [http://depts.washington.edu/labweb/referencelab/](http://depts.washington.edu/labweb/referencelab/)

**Visiopharm (Booth #9)**
Over the past 14 years, Visiopharm image analysis and stereology software has become the preferred Quantitative Digital Pathology solution for academic researchers all over the world. Recently, Visiopharm has expanded to include ONCOtopix™ Dx for cancer diagnostics with CE-IVD breast algorithms, an LIS driven workflow, and Virtual Double Staining. Our software is featured in over 800 scientific publications and is compatible with leading whole slide scanners. For more information visit: [http://www.visiopharm.com/](http://www.visiopharm.com/)

**American Pathology Foundation (Booth #14)**
The American Pathology Foundation (APF) is a professional society devoted to the business of pathology. Founded in 1959, the Foundation focuses on providing quality educational programs and management resources for members to help them stay current with scientific, regulatory, and marketplace developments affecting the practice of pathology. APF membership is inclusive of pathologists, practice managers, pathology residents and academic programs. For more information visit: [https://www.apfconnect.org/](https://www.apfconnect.org/)

**American Society for Investigative Pathology (Booth #11)**
The American Society for Investigative Pathology (ASIP) promotes the discovery, advancement, and dissemination of knowledge in experimental pathology and related disciplines. We achieve this by fostering investigation into the pathogenesis, classification, diagnosis, and manifestations of disease through meetings, publications, and educational activities. The Society is the owner of *The American Journal of Pathology* (AJP). *AJP* is the leading global forum for reporting research on cellular and molecular mechanisms of disease publishing high-quality, original papers on the cellular and molecular biology of disease. For more information visit: [www.asip.org](http://www.asip.org)

**GRM Document Management (Booth #17)**
Trusted for over 28 years, GRM Document Management has been a leading provider of information management solutions. We continue to demonstrate technological leadership by bringing proprietary innovation to document storage solutions, digital records management, data protection services, document shredding services and healthcare release of information. For more information visit: [http://www.grmdocumentmanagement.com](http://www.grmdocumentmanagement.com)

**Kellison & Co. (Booth #19)**
Since 1976, the principals of Kellison & Company have specialized in providing comprehensive revenue cycle management services to Pathology practices including outreach, hospital-based AP practices, molecular labs and clinical professional component practices. Kellison’s goal is to help improve cash flow, reduce administrative costs and enhance patient satisfaction. The company provides credentialing services, turning around denials and reporting options to help you monitor your current financial status, as well as to predict future trends. For more information visit: [www.kellison.com](http://www.kellison.com)

**McKesson Business Performance Services (Booth #13)**
McKesson Business Performance Services is an experienced provider of healthcare management, medical billing and technology services for hospitals, health systems, physicians and other valued healthcare stakeholders nationwide. We offer a comprehensive portfolio of revenue cycle solutions, practice management services, and advanced technology to help our clients achieve better business health. For more information visit: [www.mckesson.com/bps](http://www.mckesson.com/bps)

**Medusind Solutions (Booth #16)**
Medusind Solutions® has provided high-end service offerings to pathologists, hospitals and health systems since 1975. With a staff of medical doctors and CPC/CPC-H certified coders, we bring 38 years of relevant pathology billing experience, technology and time proven processes to the management of your billing, ICD-9/10 coding and compliance needs. For more information visit: [http://www.medusind.com/](http://www.medusind.com/)
QGenda (Booth #15)
QGenda is the industry leader in automated physician scheduling. QGenda provides Software-as-a-Service that automatically generates optimized physician work schedules to accommodate complex business rules via QGenda's high powered algorithm. In addition, QGenda accurately schedules the appropriate medical provider based on his or her skill level, specialty, availability, and preferences. Please stop by the QGenda booth to learn more about us. http://www.qgenda.com/

Vachette (Booth #18)
Are you 100% confident in your CBO or practice billing? When was the last time you auditing this process? Who is building your projections for new bundled payment models? Perhaps Vachette Pathology can help. We specialize in assisting university and private practices and health systems in revenue cycle consultation. Who is watching your wallet? Mick Raich 517-403-0763. For more information visit: http://www.vachettepathology.com/

ViewsIQ (Booth #12)
ViewsIQ is an imaging software company that develops microscopy imaging solutions for academic institutions, hospitals, and research laboratories. Designed to integrate seamlessly into the laboratory’s existing microscopy workflow, ViewsIQ’s Panoptiq™ digital imaging platform allows users to stitch together panoramic images and visualize 3D structures in real time at up to 100x to capture the full complexity of a microscope sample. Tab 2 - CME INFORMATION
Continuing Medical Education (CME) Information

CME Accreditation Statement: This activity ("APC 2015 Annual Meeting") has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the American Society for Clinical Pathology (ASCP) and the Association of Pathology Chairs (APC). ASCP is accredited by the ACCME to provide continuing medical education for physicians.

The ASCP designates this “live” educational activity ("APC 2015 Annual Meeting") for a maximum of 22.5 AMA PRA Category 1 Credit(s)™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

CME applications are available online (www.apcprods.org/Meetings/2015/CME) beginning July 1, 2015. Should you have questions, please contact the APC Office (301-634-7880; email info@apcprods.org).

Meeting Objective/Target Audience: The APC Annual Meeting is a three-day meeting that provides educational activities for three major target audiences: (1) Chairs of Pathology and Laboratory Medicine Departments; (2) Program Directors and Associate Directors of Residency Training Programs; and (3) Course Directors of pathology courses in LCME-accredited medical schools in North America. The objective of the meeting is to facilitate knowledge acquisition regarding the ability of academic Pathology and Laboratory Medicine departments to carry out their missions in teaching, clinical service, and research. The meeting therefore focuses on undergraduate (medical school), graduate (residency and fellowship) Pathology education, and the practice of Pathology and Laboratory medicine in academic medical centers and hospitals. Content focuses on issues such as the development of educational programs and curricula for the training of medical students, residents, fellows, and senior pathologists on providing cost-effective, high-quality clinical service to patients. The meeting also features content related to research and implementation of cutting edge practice tools, such as diagnostics, genomic medicine, and bioinformatics; and their implications on future healthcare delivery, as well as workforce development and realignment to support current and new skill sets required to practice Pathology and Laboratory Medicine now and into the future.

The target audience is professionals (MD, DO, PhD) and others who serve as the academic, medical, scientific, and administrative leaders of departments of pathology and laboratory medicine in the United States and Canada.
Disclosure of Financial Relationships and Resolution of Conflicts of Interest: In order to ensure balance, independence, objectivity and scientific rigor in all of its educational activities, and in accordance with ACCME Standards, the ASCP requires all individuals in a position to influence and/or control the content of ASCP CME activities to disclose to the ASCP and subsequently to learners whether they do or do not have any relevant financial relationships with proprietary entities producing health care goods or services that are discussed in CME activities. Faculty are asked to use generic names in any discussion of therapeutic options, to base patient care recommendations on scientific evidence and to base information regarding commercial products/services on scientific methods generally accepted by the medical community. All ASCP CME activities are evaluated by participants for the presence of any commercial bias and this input is used for subsequent CME planning decisions. The primary purpose of this activity is educational and the comments, opinions and/or recommendations expressed by the faculty or authors are their own and not those of ASCP.

None of the organizers or presenters of this educational activity disclosed a relevant financial relationship.

PLEASE NOTE:

Please refer to the APC Meeting Evaluation and CME Application Workbook for a consolidated list of sessions that are eligible for AMA PRA Category 1 Credit(s)™. APC, PRODS and UMEDS sessions are eligible for AMA PRA Category 1 Credit(s)™ except where noted in the meeting program. PDAS and GMEAS sessions are not eligible for AMA PRA Category 1 Credit(s)™. Visiting exhibits is not an approved continuing medical education activity. Most meals are not approved for continuing medical education credit; however, some special breakfasts and lunches that have educational content are eligible for Continuing Medical Education credit as noted in your APC Meeting Evaluation and CME Application Workbook. The meeting program states those events that are not a Continuing Medical Education activity.

"Promoting Excellence in Academic Pathology"

The Association of Pathology Chairs serves as the voice of academic pathology. The mission of the APC is to provide leadership and to advocate for the dynamic discipline of pathology. The APC provides education, training, information resources and networking opportunities for chairs, residency program directors, undergraduate medical educators, department administrators, and graduate program coordinators. ### Overall Meeting Evaluation:

My objectives in attending this meeting included: (check all that apply)
- Learning more about workforce development and realignment to support current and new skill sets required to practice Pathology and Laboratory Medicine now and into the future.
- Learning the newest advances in research and implementation of cutting edge practice tools, such as diagnostics, genomic medicine, and bioinformatics; and their implications on future healthcare delivery.
- Learning the newest approaches to the development of educational programs and curricula for the training of medical students, residents, fellows, and senior pathologists.
- Making contacts to help me meet new educational objectives or duties.
- Increasing the quality of patient care provided through my pathology department.

My objectives were fulfilled:  □ Yes  □ No
Rank the following statements:

The meeting content reflected the advertised title and description:
□ Strongly Agree □ Agree □ Disagree □ Strongly Disagree
The meeting met the learning objectives listed:
□ Strongly Agree □ Agree □ Disagree □ Strongly Disagree
The content was valuable and met your needs:
□ Strongly Agree □ Agree □ Disagree □ Strongly Disagree
The content was free from commercial bias:
□ Strongly Agree □ Agree □ Disagree □ Strongly Disagree
The content was well-organized:
□ Strongly Agree □ Agree □ Disagree □ Strongly Disagree
The level of difficulty of the content was appropriate:
□ Strongly Agree □ Agree □ Disagree □ Strongly Disagree
The content had practical application to your practice:
